COURT PASSES ON STRIKE CASE

Nation-Wide Temporary Injunction Granted at Chicago

CHICAGO. — (Associated Press.) — Judge James H. Wilkerson today granted Attorney General Daugherty's petition for a nationwide temporary injunction against the striking railway shopmen.

Workers Are Declared Responsible for Outbreaks

Partial settlement of the strike, he held, has not affected the right of the government to obtain a nationwide injunction.

The court gave attorneys for the defense until Monday morning at 10 o'clock to study the decision and prepare to argue the text of the injunction order which will be signed.

Attorney General Daugherty on Thursday presented the government's proposed draft which is even more drastic than the restraining order now in force.

50 ARRESTED
TOLEDO — Fifty men were arrested here today, charged with posing as disabled World War veterans. Warrants for their arrest were sworn out by the American Legion. All fifty have been ordered out of Toledo.

ARMY DIRIGIBLE C-2 LEAVES NOGALES TODAY

NOGALES, Ariz. — The flight from El Paso to Nogales was the hardest of the trip from Langley Field, Virginia, said Commander H. A. Strauss, of the C-2, army dirigible after the airship flew here from El Paso, Texas.

Today's plans were for the C-2 to halt for refueling at Yuma, 220 miles west and then take the air for the last leg of the transcontinental flight to Ross Field, Arcadia, Calif.

MURDER SUSPECT IS DESCRIBED

Woman With Terrifying Eyes Sought in Jersey Case

NEW BRUNSWICK, N. J. — (United Press.) — Search for a woman with "terrifying eyes," suspected of the murder of the Rev. Edward Hall and Mrs. Elinor Mills, wife of his son, was started today by police and county detectives.

The description of this suspect was furnished by Charlotte Mills, daughter of the slain woman. She told interviewers that the person whom she believed did the killing, has "terrifying eyes, the stature and strength of a man and a very jealous nature."

According to the theory of Charlotte, this jealous woman, who suspected her mother and the clergyman of intimacies, in the girl's belief she followed the pair when they were on an innocent stroll in the woods near the abandoned Phillips farm last week, then sprang out and confronted them. Charlotte thinks she must have been accompanied by a man who assisted her in the killing which followed.

Galleries Closed to Spectators at South Bend

SOUTH BEND Ind. — (Associated Press.) — Indications were that Harry Poulin, accused by Mrs. August Tiernan with being the father of her ten-month-old child would take the stand sometime today in an effort to prove his innocence of the charge.

If Poulin takes the stand, he will not be obliged to face the crowded galleries which have greeted other witnesses. Judge Ducommun at the close of yesterday's hearing, announced that the galleries would be closed to all spectators hereafter, with the exception of press representatives and persons directly interested in the case.

Several defense witnesses took the stand during yesterday's hearing, their testimony for the most part being a corroboration of that of Mrs. Mae Poulin, which was intended to break down the story of Mrs. Tiernan regarding the occasion which the latter claimed Poulin was in her company. The witnesses asserted they saw Poulin at church on several of these occasions.

The defense placed W. B. Beecher, a grocer, on the stand yesterday in an attempt to discredit Professor Tiernan's denial on the stand Thursday that he bought goods on credit from a local store under the name of Cannon.

TWO ESCAPED CONVICTS CAPTURED IN KENTUCKY

COLUMBUS — Orville Overtake, 28, Mowbrystown, Ohio, and Frank Osborn, 35, Mount Victory, convicts who escaped from the Leavenworth farm September 9, last, have been captured at Silver Grove, Ky., near Newport, according to a dispatch from the latter city.

The two men are said to have told an acquaintance that they were escaped convicts.

BAN ON MARRIAGE OF DIVORCEES

Matrimonial Prohibition Adopted by Episcopal Convention

PORTLAND, Ore. — (Associated Press.) — Communicants of the Protestant Episcopal church in the United States are forbidden to marry divorced persons, except in cases where divorce has been granted on the ground of infidelity. This is the result of the action taken here by the house of deputies of the general triennial convention, confirming a measure passed previously by the house of bishops.

The former law of the church merely forbade clergyment to perform a marriage ceremony where the party to it had been divorced for a cause other than infidelity. The canon does not provide punishment for members of the church disobeying it, but there was pending before the convention today a resolution by Bishop Cameron Mann of the diocese of South Florida providing for the excommunication of persons remarrying contrary to the divorce canon.

THREE AMERICAN CITIZENS ARE KIDNAPED IN MEXICO

Held by Bandits for Ransom of 10,000 Pesos

CAPTURED NEAR TUXPAM

Federal Troops Ordered in Pursuit of Gang

(By FREDERICK G. NETMEHR) MEXICO CITY. — (United Press.) — Three Americans employed by the International Petroleum Company, were kidnapped by Mexican bandits near Tuxpam and are being held for 10,000 pesos ransom, according to a report, received by the minister of the interior today.

The men's names were given as Sullivan, Ellsworth and Stacey. It is believed they are held by an outlaw band under command of Pedro Meza.

Federal troops have been ordered to go into pursuit of the bandits.

FALSE TEETH STOLEN

CLEVELAND — Edward Hartman, Colonial Hotel, told police Saturday that thieves who entered his room, took a set of false teeth, a pair of spectacles, manicure nippers and one pint of whiskey.

SPEAKER BARRED
YOUNGSTOWN — Walter Z. Foster, leader of the 1919 steel strike will not be permitted to speak here October 1, because of his connections with the alleged Communists who were arrested in a raid upon a meeting at Bridgman, Mich., charged with the violation of the Michigan syndicalism act.

SKELETON SEIZED BY DRY AGENTS

AMHERST, Mass. — (Associated Press.) — Activities of a squad of dry agents this summer cost the Amherst expedition seeking prehistoric skeletons in South Dakota, Wyoming, and Nebraska, a fine specimen of ancient camel, it has been revealed.

A skeleton uncovered by the expedition was destroyed in the night by a sheriff and posse who thought it a device for concealing bootleg liquor.

The incident occurred near Mitchell, Neb.

Nation League Assembly Refuses to Make Change

GENEVA. — (Associated Press.) — The question of revising Article X of the League of Nations covenant or eliminating it altogether was passed on to the fourth assembly by the present assembly today without other observation or recommendation than the subject be considered in all its bearings.

The Canadian delegation showed no disposition to push Charles J. Doherty's amendment eliminating the article.

M. Barthelomy of France said Article X ought not to be changed in the hope of bringing the United States into the league.

Turks Continue to Draw in on Dardanelles

VICTORY IS SEEN BY KEMAL

Fully Aware of Weakness of English Forces

LONDON. — (Associated Press.) — Notwithstanding assurances from Paris that the prospects for peace in the Near East are brightening, ugly reports continue to come from Constantinople and several more units of the Atlantic fleet, including the battleship Revenge, have been ordered to prepare for service in the Dardanelles.

The favorable side of the picture is presented by the Paris correspondent of the Times who reports that the French naval commander, Admiral Dumasnil, sent his government a most reassuring dispatch concerning his interview with Mustafa Kemal Pasha. He said he found the Turks "entirely tractable and ready to enter negotiations without delay."

The Morning Post also is hopeful. It asserts that the allies have good ground to believe that Mustafa Kemal does not intend to attack any allied troops and that if he had such intentions he lacks the necessary heavy artillery with which to oppose the British.

The Post naval expert points out that within a few days with the addition of the Revenge, the British will have in the straits seven capital ships mounting altogether sixty 13-inch guns and eight 15-inch guns.

ADVANCE OF TURKS

Among the latest despatches from the Near East is a report to the Times to the effect that large forces of Kemal's cavalry have reached Adramytti from Smyrna, moving toward the central zone. (Adramytti is fifty miles southeast of Chanak near the Gulf of Adramytti).

I have traveled the world over. The automobile makes my being here possible. I am writing you tonight because you should know more about me, particularly if you own or drive an automobile, whether it be passenger car or truck. I have many interesting things to say and I would be pleased if you would take the time right now to read every word of what I write. Who am I? I am the long-mileage king of the highway -- A Dayton Thorobred Cord Tire. You will see hundreds like me on the streets of Lima every day. We are all here because the Ebling Auto Supply Company, 213 West High-st, chose us as the best tires in the world. I am proud to say we are living up to that reputation.

I, whom you are forever to know as the Dayton Thorobred, come with a great guarantee for long life and long mileage. My guarantee isn't at all necessary, for all Thorobreds are known to live long lives and to be good servants to their masters, the owners of all automobiles.

My guarantee, while it covers Ten Thousand miles against factory defects in workmanship and materials, etc., is one of those re-assuring things which is always there but is seldom necessary. It is signed by my parents, The Dayton Rubber Manufacturing company and backed to the very letter by my Lima sales people, the Ebling Auto Supply company. My guarantee is in the hands of every one of my owners as a silent but convincing evidence of my manufacturer's and dealer's determination to stand back of me and of every Thorobred which leaves the Dayton factory.

Some of my brother Thorobreds have been known to travel thirty thousand miles and more. I myself am one of four Thorobreds now traveling on a Ford coupe owned by a Lima man and whose name Mr. Ebling will furnish on request. We four have gone sixteen thousand miles; three of us look good for ten thousand more. One of my brothers, having traveled the sixteen thousand mile distance, has been replaced by another younger brother and he is now on the emergency rim, though good for many more miles.

I tell you about myself, but my story may be applied to almost every other Dayton Thorobred Cord Tire that leaves the Dayton factory every day. I would like to have at least one of the other Thorobreds on your car. Test him out with any other tire in the world, then judge for yourself we aren't the longest lived race of tires you ever heard of. Mr. Ebling will be glad to have you call and verify these things I have written. Or, he will send his service car any place in the city and put a Dayton Thorobred on your car without extra charge. His salesroom and service station at 213 West High-st, and the phone number is Main 2931.

BANKERS' MEET TO TEST NEW YORK

City's Hospitality Will be on Trial Next Month

PITTED AGAINST THE WEST

Financiers Also Gather at Del Monte, Cal., Soon

(By B. C. FORBES)

NEW YORK—(Special)—Do people throughout the country regard New York as a cold, inhospitable city?

A good many of them, I rather think, do.

New York is shortly to have its hospitality tested.

Several thousand bankers from all corners of the country are to come to New York at the beginning of next month to attend the annual convention of the American Bankers' Association.

Will New York arise to the occasion?

A little later in the month the Investment Bankers' Association is going to hold its convention at Del Monte, California.

Which of the two groups of bankers will be more cordially and winningly treated?

Will Californian hospitality outdo New York's hospitality?

Frankly, no one need have the slightest doubt concerning the reception the investment bankers will be accorded when they visit California. They will be treated royally. That goes without question.

What of New York?

I rather think that the visitors will be very agreeably impressed by the courtesy and kindness tendered them by the big city.

The atmosphere in quite a few of New York's finest financial institutions is very different today from what it was in former times. The old-fashioned, ultra-dignified bank president who considered it unbecoming to smile or unbend in any way is passing. At least half of New York's banking institutions are now headed by men of the more modern school. These men know how to smile, they know how to laugh, they know how to be congenial, they know how to be human. They know the value of cultivating attractive personalities. They know that people like to do business with people they like.

They know that winning good will helps to win deposits.

Also, most of our younger generation bankers know how to play. The leaders among them carry such burdens and responsibilities that they can keep themselves in physical and mental trim only by indulging in a rational amount of recreation. The wisest of them nowadays seek their recreation more often in the open air than their predecessors did. Listen to the conversation when bankers and responsible business men meet one another away from their places of business and you will find that the talk is often about golf scores than bridge scores or poker winnings.

That the banking fraternity in New York will do more than they have ever done before to make pleasant the visit of outside bankers attending the convention can be accepted as certain.

As for the general run of New Yorkers, visitors, whether bankers or hutchers or candlestick-makers, must make allowances for the difference between life and conditions in the Metropolis and in smaller places. The well-recommended person who visits a small or moderate-sized town can be taken to one or two clubs and there meet most of the local citizens of prominence. Also it is much easier to recognize visitors in smaller towns.

To the New Yorker—everybody—native and stranger—looks alike. There is no possible means of enabling the rank and file of the people to distinguish a visitor. No visitor can possibly be brought into friendly contact with a thousandth part of the people of New York.

Notwithstanding frequent complaints of a different tone, I am willing to predict that our visiting bankers will not find any lack of cordiality or hospitality on the part of those they meet, those they are brought into direct contact with, in New York. I rather believe that some of those who have visited New York in past years will find that New York has made considerable progress in the direction of hospitality.

After all, isn't a reputation for hospitality worth having? If it happens to be the supreme pursuit of the human race, is it not of deep importance that individuals and towns and cities should earn a high reputation as dispensers of happiness?

BROWN, PIRATE CHANCES TO COP ARE ALMOST GONE

MARGINS INCREASED BY WINS FRIDAY

NEW YORK.—Take it from New York's baseball fandom the major league pennant races are "all over but the shouting."

Mathematically speaking, the St. Louis Browns in the American and the Pittsburgh Pirates in the National have a chance to overhaul their Gotham rivals, but it's a slim chance.

The Giants with ten more games to play were leading by four and a half games today as a result of defeating Pittsburgh 8-7. The Yankees with six games yet to play, downed Cleveland 9-3 for their fifth straight victory and kept a lead of three and a half games over the Browns, who defeated Philadelphia 11 to 5.

NEED HALF

The New York clubs need win but half their games—the Giants five and the Yankees three—to retain their championship titles, even if the Pirates win all seven of their contests and the Browns are victorious in their five.

McGraw used six pitchers and an armada of strategy to take the last contest from Pittsburgh, the climax coming in the ninth when the champions squeezed over two runs for victory.

The pirates piled up a five run lead in the fourth but Johnny Morrison paved the way for the beginning of the end by blowing up in the next inning.

Joe Bush hung up his twenty-third triumph of the season at the expense of Speaker's Indians while American League champions pounded Edwards and Winn consistently.

SISLER BACK

George Sisler returned to the game while the Browns slugged out their victory over Philadelphia. Ty Cobb laced out four hits to help his Tigers down the Red Sox 5 to 3, while the White Sox bunched hits to beat Washington 6 to 4.

In the National League Philadelphia and Boston divided double headers with Chicago and Cincinnati, respectively, while St. Louis took the last game of the series from Brooklyn 7 to 4.

MYATT TOPS A-A

MILWAUKEE — Going stronger than ever, Glenn Myatt, star catcher with Milwaukee, today has a nine-point lead over his rivals in the race for the batting championship of the American Association. As the season draws to a close, Myatt apparently is in no danger of being displaced, as he continues to strengthen his position instead of losing ground. His average is .373.

Team Shoot Starts

CAMP PERRY — The United Service team match and the slow stages of the National Individual Pistol match are the main matches scheduled for today's National Rifle match competition. The National Individual Rifle match was won yesterday by Sergeant Otto Bentz, Fort Worden, Wash., with a total of 337.

HELD FOR SLAYING AGED MAN
JOSEPH MAY DIE
OF INJURIES
Lima Man Hurt in Silo Crash is
Improving
Information from McKittick
hospital, Kenton, indicated Satur-
day that William Joseph, 50, one
of the four men injured Thursday
when a silo collapsed on the Se-
lento farm near McGuffey, is
near death.
Condition of John Varga, 31, of
427 S. Church-st., whose death was
unexpectedly expected Friday night,
is considerably improved, according
to word from McGuffey. He was
taken to the home of his father-in-
law, Allen Edwards, near McGuffey.
Joseph's chest was crushed and
pneumonia has set in, according to
Dr. McKittick, superintendent of
the Kenton hospital.
Joseph's son, Warrick, 17, and
Jack Salomons, 49, both of McGuf-
fey, are recuperating from slight in-
juries. A fifth man, Brady Lewis,
20, escaped without injuries.
DUMBBELLS
Pa Whoza Dumbbell is Having
His Troubles—Some of
His "Thinks"
PA WHOZZA DUMBBELL was in
a quandary when interviewed
today.
The landlord had raised the rent,
and he had to move.
"Why don't you try light-house-
keeping?" he was asked.
"I wouldn't want to be so near the
ocean," replied Paw, the children
might drown.
Paw is also seeking work but
can't decide what to do. He was
down to the orphan to get a job
as a stage driver. He thought he
was the man hired to herd the chorus
on and off behind the footlights.
Paw stopped in the grocery on the
way back and asked for some May-
flower to bake a cake.
Some other misconceptions ex-
pressed by Paw, dumbbell, while
telling of his troubles were that:
A banana is a Mexican bandit.
South Bend is an exercise.
Lima was named after a bean.
A skeleton key can open a dead-
lock.
A Hungarian goshawk is an over-
shoe worn by flappers.
And chile con-carne is a new way
to shake the Shimmy.
There'll be another interview with
a member of this family tomorrow.
DRUG RING UNCOVERED
THRU PRISONER'S DIARY
ST. LOUIS—A small diary
carried by Max Gordon, under arrest
charged with helping bond in New
York in connection with the sale of
narcotics, is believed by local police
to have furnished the information
which led to the discovery in New
York last night of the headquarters
of a gigantic drug ring and seizure
of narcotics with an estimated value
of \$500,000.
Gordon, with Abe Goldfinger, was
arrested here September 2.
Both are at a local hospital.
According to the local police, the
two men under arrest were the local
agents for the drug ring.

CLARA SKARIN WINBORN
OAKLAND, Cal. — (Special) —
For one month Clara Skarin Winborn
became a "dead man" and, according
to police, carried on the life of the
man she is alleged to have slain.
She wrote his letters, so the story
goes, signed his name to them; ar-
ranged his collections and attended
to business in general; consulted
with his lawyer and forwarded his
mail when he "went on a business
trip." All this while the corpse lay
in an adjoining room.
Such are the alleged details in
connection with the year-old mys-
tery over the slaying of Ferdinand
Winborn, 70, wealthy recluse and
really man of Seattle, Wash.
Clara Winborn was arrested in
Oakland. She refuses to talk about
the case, saying simply, "I will tell
my story to the jury."

Divorce Hearing
Altered plans of George Steele,
millman, 613 1-2 W. Wayne-st., to
re-marry if successful in obtaining
a divorce decree, were related by
witnesses testifying in common
pleas court.
Visita of Steele's alleged sweet-
heart to his residence were men-
tioned and the purchase of new fur-
niture for his home. Another wit-
ness told of seeing the wedding
dress, planned by the prospective
bride for her approaching nuptials.
Testimony of a sordid character,
regarding Steele's alleged conduct
toward his wife, was related by
Mrs. Steele, when placed on the
stand.
Prior to their marriage she testi-
fied that Steele told her he was a
physician, and taught a Sunday
school class. After the nuptials
she discovered he was a wagon man
for a local dairy.
Judge Fred C. Becker, has the
case under advisement.
HOW THE BISON

BY PROF. M. J. ELROD

Montana
The American bison, or buffalo,
which came so nearly to total ex-
tinction about 1900, is now saved to
the world, even if the majority of
the living animals are protected by
large fenced ranges. Safe estimate
for total number of animals in the
world is about 10,000. Of these
Canada has 5000. The United States
has 3200. The few remaining ani-
mals are in European parks.
In 1886 the number of animals
was reduced to about 300, according
to Hornaday. The American bison
society, organized to save the noble
animal, aroused public sentiment to
the danger of losing entirely the fa-
mous animal of the great plains,

THE POISON CREW

POISON gases, developed during the war, eventually will exterminate the cotton boll weevil. This is predicted by Brig. Gen. Ames A. Fries, chief of the army's Chemical Warfare Service.

Extinction of the boll weevil would mean a money saving running into hundreds of millions of dollars a year.

This insect's ravages in 1921 cut the American cotton crop 6,277,000 bales of 500 pounds each, or nearly five times as much as in 1909.

The boll weevil's damage averaged 109 pounds for each acre devoted to cotton culture.

Nearly a third of last year's potential cotton crop was destroyed by the weevil.

GENERAL FRIES says: "That the boll weevil will be exterminated, I am certain. The length of time it will take for such control will depend in a large measure upon the funds available for increasing our knowledge of poisoning compounds and applying them to the solving of the problems of the boll weevil."

POISON gas unquestionably has a great future as an exterminator of insects and animals. It is being used, with much success, in killing rats, gophers and other rodents which are destructive to pastures and fields and which carry dread diseases such as bubonic plague.

In the Philippine islands, our army gas experts are beginning a poison gas campaign to destroy the locusts which cause terrific damage to crops.

This is "scientific progress, born of the war."

But when you take the peacetime use of poison gas, and compare it with its evil work in the war, you realize that humanity is getting less than 10 cents in exchange for \$10.

There is such a thing as "progressing" backward.

PRESTO!

RAINMAKER HATFIELD is the talk of Italy. They had a five-months' drought over there. Italian government sent an S. O. S. for Hatfield, reputed to have made the heavens open and pour down heavy rains in various parts of our country and Canada.

Hatfield set up his rigging near Naples. Presto! Comes a young cloudburst.

Dr. Hering in his scientific articles says that weather control by artificial means is not regarded as unscientific, and that meteorologists are not hopeless of accomplishing it.

C. F. Marvin, of the United States Weather Bureau, steps in, however, and warns farmers against swindlers in the guise of weather wizards. A large crop of these fakers is sprouting up, claiming to make rain, stop rain, prevent frost, regulate heat and cold and charm the winds.

Some of them may be practicable. But farmers should remember that the genuine thing always has its counterfeiters.

JAIL

BERMUDA is galling parents for the crimes of their children. A nine-year-old boy convicted of theft, is allowed to go free. His mother pays a fine and goes to jail a month for permitting him to become a thief. This is a typical case under Bermuda's new law, which is said to be working wonders.

Compulsory creation of parental feeling of responsibility would not be a bad thing in America. French detectives, dealing with adult crimes, say, "Find the woman." In juvenile crime the first rule should be, "Find the parent."

DELUSION

UNCLE SAM reports that during August he paid \$188,000,000 interest on the public debt.

Liberty bond holder pockets the interest on his bonds. Then the money to pay the interest is taken out of his other pocket, as a taxpayer. Only consolation is that part of it is taken out of pockets of people who do not own bonds. You help pay the interest, whether you get it back on bond coupons or not.

SPEED

EVERY dollar in the country is changing hands seven times a month. Bank clearings in August exceeded \$30,000,000,000, or more than seven times as much as the total amount of money in circulation.

If you can hang onto a dollar four and a half days, you are doing better than the average.

DRESSING

PAIL POIRET, famous Paris fashion designer, says only a man can create fashions for women. This is in an interview.

Poiret adds that America trails Paris styles three years behind. Zero in something to worry about.

LETTERS

POSTOFFICES now are selling stamped envelopes of extra fine paper "to suit the most fastidious taste." The rats smart stationery has been on sale since August 1 sales lag. Postal officials say the public is overlooking a good bet. We pass the information along to help a good thing.

A FRIEND IN NEED A FRIEND INDEED

Writes Mrs. Hardee Regarding Lydia E. Pinkham's Vegetable Compound

Los Angeles, Calif.—"I must tell you that I am a true friend to Lydia E. Pinkham's Vegetable Compound. I have taken it twenty years and it has helped me change from a delicate girl to a stout, healthy woman."

When I was married I was sick all the time until I took Lydia E. Pinkham's Vegetable Compound. I was in bed much of my time with pains and had to have the doctor every month. One day I found a little book in my yard in Guthrie, Oklahoma, and I read it through and got the medicine—Lydia E. Pinkham's Vegetable Compound—and took eight bottles and used the Sensitive Wash. I at once began to get stronger. I have got many women to take it just by telling them what it has done for me. I have a young sister whom it has helped in the same way it helped me. I want you to know that I am a friend indeed, for you were a friend indeed."

—Mrs. GEORGE HARDEE, 1043 Bryant St. Los Angeles, California.

Let Lydia E. Pinkham's Vegetable Compound be a "friend indeed" to you.

No bid will be considered unless the bidder fully agrees to, and complies with all provisions of Section 4515 of the General Code of Ohio, and each bidder shall deposit with his bid a certified check for the sum of \$1,000.00 payable to the "Sinking Fund Trustees of the City of Lima," as evidence of good faith. If the bidder to whom contract is awarded refuses or neglects to accept said contract, or fail to file the necessary security, then said deposit of \$1,000 shall be retained by the Sinking Fund Trustees as liquidated damages for said failure.

Each bid shall contain the full name of every person, company or corporation interested in the bid, and shall state the highest rate of interest computed on daily balances. The Sinking Fund will open all bids received at their regular September meeting at 4:00 p. m. Sept. 25, 1922. The Trustees reserve the right to reject any or all bids and to waive any minor defect in the interest of the city.

Signed: Dr. Wm. Roush, President
Elmer Webb, Vice President
C. A. Jacobs, Secretary
F. L. Butler.
Attest: Evan O. Sellers, Secretary.

'ROUND LIMA HOUR BY HOUR

WITH APOLOGIES

BY OH. OH. JACKENRIM

ABE MARTIN

"Oh, shoot, I thought we'd get a take a long strike variation this fall, but the saw will met the commands, complained Mrs. Zarr, today. Next I findin' a suitable site for a car-buncle, the hardest thing is carryin' a mattress upstairs."

ning; not bottling. In the post, telegram from the Pater Familias. Stating he would be up from St. Marys.

Abroad, to several moneries; albeit, discount committees having the "busy" sign working long hours. Down to Cloyd Armstrong, for adjustment of the liver. In discourse he advised a new one. No chance. This day I took vow to buy naught, until I get a twin for my newest pajama jacket.

Met on the street, Clark Bennett son of the eminent electro-medico expert of that name. Clark was a fussy boy, a bouncing one in the Electron, where I spent my honey-moon winter. His mother would call down the chute "Clar-kee, Cla-kee." And Clar-kee would come a-runnin'. When he was a big boy in the latter half of the first decade of this century, A. D., Clar-kee taught me to run a motor car. Until the bee so buzzed, that Elmer Rudy taught me how to buy one. So, which I did; and cranking her, shoved down the chute. But she didn't move. Put on more gas; but she didn't move. Then, I saw my money gone, yet the bus wouldn't run. Hate I to Elmer, who said I was crazy. Out he came (at a \$1 a came) saying, what's wrong. Illustrated I. Cranked her. Adjusted the spark. Got all set. Put down my foot on the clutch. She didn't move. Well, why don't you go, says Elmer. She won't go, says I. Well, you haven't started, says Elmer. Well, I know that, ye fool, says I. Get-

ting madder and madder. Then Elmer says, Why you fool yourself, you learned on a Ford; this is a shining pear. Then he shows me the lever; hence which I took for the jack. Albeit, I never forgave Clar-kee for not telling me there were two kinds; the kind that did, and the kind that didn't start with your foot.

To lunch with the Pater, he now being in the village. Over a steak, mashed potatoes de terre, and his favorite, Shea tomatoes. Then out in the bus, and over the town. Showing him the Lima Loco and where once was the brewery. Which, so much a Christian, didn't like so well.

Stopped and chatted to F. J. Zantman, the office supply king; he being raised in my town. On patchy pants, as were I. Daddie talked French and Indian war, and that mistake of 1812. Having been mooning about the graves at Fort Loramie and Amanda. He loves that stuff, in fact draws the maximum pension allowance, for having helped in the late civil unpleasances. In which General George A. Hall served at Chickamauga.

In the evening, dined at home with my rich sister; the discourse being on Art and the Longevity of Aztecs. She's the only high-brow in the family, not having children. We all do humor her for her childlessness. Drove down Metcalf. It isn't finished; it is hardly started; it will do to have a Halloween celebration anon, so disgustedly, to bed.

SCHENCK'S MANDRAKE PILLS

are fundamental in their action, they go down to the root of the trouble, restoring liver, stomach and bowels to a healthy condition; giving quick relief from bilious attacks, indigestion, headache, heartburn, flatulency, depression of spirits—and affording absolute freedom from these disorders. Schenck's Mandrake Pills are tonic, therefore they form no habit.
